Kiiresti muutuv sotsiaalne ja looduslik keskkond

A wide-angle, first-person perspective shot from the front of a vehicle driving on a snow-covered road. The road stretches straight into the distance, flanked by snow-covered fields and low mountains. The sky is a pale blue with a hint of orange near the horizon, suggesting dawn or dusk. The vehicle's hood is visible in the bottom foreground.

Welcome!

You can use the application system to:

- fill your application step by step until the deadline,
- send your application to the administrators of the programmes,
- report about granted project,
- see your previous applications (2011 and later),
- get in touch with the administrators,
- receive information about the support programmes.

We recommend that you prepare your application in good time before the deadline – you can save your filled in information and edit your application until the deadline of the applying. Please bear in mind that the system does not accept applications after the application round has closed.

In order to succeed write a good application with a clear description of the project and the budget. Read the [guidelines](#) for the programmes carefully, they are the basis for selecting the projects that will receive funding.

Please note that we do not accept paper applications!

Good luck!

8b. MAIN OBJECTIVES OF THE PROJECT

- 1) To promote and strengthen co-operation and exchange of knowledge between regional public administration structures and local authorities on all administrative levels in Pärnu County, Ostrobothnia region and Nordland County.
- 2) Regional development through studying following areas: competitiveness of the region and entrepreneurship, research and education and innovation, administrative reform, marginalization and connections, tourism and culture, climate change and environmental issues and green thinking.
- 3) Exchange on best practices and capacity building.
- 4) Promotion of cross-sectoral co-operation.

8c. DESCRIPTION OF THE ACTIVITIES OF THE PROJECT

Study tour by own transport (minibus) through Nordic partners in Finland, Sweden and Norway during 10 days in September 2012. Special seminars and visits will be held in Vaasa, Bodø and Oulu, and in addition in Norbotten.

Themes for meetings and presentations:

- 1) regional politics and connections between different areas
- 2) competitiveness of the region
- 3) education, school system (school network and its development), research and innovation, Triple Helix
- 4) periphery, marginalization and connections
- 5) regional development and administrative reform, balanced development
- 6) joint projects with neighbour regions and other countries

09.09 Pärnu-Tallinn-Helsinki-Vaasa

10th of September – Monday

Vaasa – Regional Council of Ostrobothnia

- 1) regional politics and administrative reform, program "Vaasa 2030"
 - 2) ICZMP (Integrated Coastal Zone Management Planning)
 - 3) state in region - Centre of Economic Development, Transport and Environment; direct connections between state, region and local areas, co-operation between different actors for regional development
 - 4) Finland's Land's Use Planning system and Regional Land's Use Plan
 - 5) Project "Plan Bothnia", maritime area planning, incl. wind parks and green energy in connection with protected areas; Energy Cluster meeting
- 11 th of September – Tuesday
- Vaasa – Regional Council of Ostrobothnia
- 1) competitiveness in the region, entrepreneurship, Vaasa Airport Park as the regional transport

 Country: Estonia

20. INDIVIDUAL ROLE IN THE PROJECT

As Pärnu county governor I represent the interests of the state on county level. I am responsible of our county comprehensive and balanced development. Territorial reform raises many questions about local and regional equal development. Nordic countries have already some experience, and therefor is vital to see their best practice, and also see what can be done differently.
